

Sri Chandrasekharendra Saraswathi Viswa Maha Vidyalaya
(Deemed to be University u/s 3 of the UGC Act 1956)

DEPARTMENT OF COMPUTER SCIENCE AND APPLICATIONS
MODEL QUESTION PAPER - DEC 2025

SUB. NAME : Java Programming
SUB.CODE : UCYF233T30
MARKS : 100

SEM : III
COURSE : II BSc (Cy)
DURATION : 3 Hrs

Section A: ANSWER ALL THE QUESTIONS

(10 x 2 = 20 marks)

1. Define user defined and library methods with examples
2. Discuss the difference between Pre/Post increment operator with examples
3. Explain different types of comment statements and its purpose
4. Discuss about escape characters and format specifiers with example snippet
5. Define Static and Dynamic Polymorphism
6. Define Simple and Multi-Level Inheritance
7. Explain different File Streams in java.io package
8. List and write about any two File read, write library functions
9. List any 5 layout managers in java.awt package
10. List any 5 built in methods for mouse event handling

Section B: ANSWER ANY FIVE QUESTIONS

(5 x 7 = 35 marks)

11. Compare and Explain the syntax of do loop and while loop with an example snippet
12. Write about steps involved in package usage with an executable program
13. Explain method overloading and overriding with an example program
14. Explain the usage of final, finally, finalize with syntax
15. Explain the usage of Abstract class and Interfaces with an example
16. Discuss the difference between multiple and multi-level inheritance
17. Explain the steps involved in reading a text file with example
18. Discuss the usage of any 5 WindowListener methods

Section C: ANSWER ANY THREE QUESTIONS

(3 x 15 = 45 marks)

19. (a) Explain the use of array in main function with an example program (8)
(b) What is the use of class and objects, Explain with an example (7)
20. Compare and Explain switch-case and if-else-if to check keyed user input is Vowel or Consonants
21. Explain the benefits of Exception handling and Threads with an executable program
22. Write a program to copy source text file contents to destination file with appropriate comments
23. Create and Explain employee class object to explain the behavior of default and custom Constructors
